RAILROAD UNION CHIEFS DIS-SATISFIED WITH AWARD OF THE WAGE BOARD.

NO STRIKE TALK REPORTED

Labor Body's Decision of 21 Per Cent Increase Probably Will Be Submitted to Referendum Vote of the Members.

Chicago.-Whether the specter of a nation-wide railway strike has been iaid by the \$600,000,000 wage increase granted to 2,000,000 railroad employes remained undecided.

Brotherhood officials, after all-day conferences, made no attempt to conceal their disappointment that they did not get all of the billion-dollar increase they asked. The bellef grew, however, in the absence of any talk of an immediate strike, that the union officials would submit the award, probably without recommendation, to a referendum of the men. A decision on this point was promised by W. G. Lee of Cleveland, Ohio, grand president of the Brotherhood of Railway Trainmen.

Railroad representatives accepted the award philosophically and immediately set about plans for passing the \$600,000,000 addition to their wage budget along to the ultimate consumer-in this case the man who pays the freight. Armed with reliable advance knowledge as to what the award would provide, the railroads had their figures ready. Judge R. M. Barton, chairman of the United States Railway Labor Board, had hardly handed down his decision when E. T. Whiter, representing the more than 400 railroads involved, announced that the roads would need an increase of 18 per rent in freight rates to meet the wage

The Interstate Commerce Commis-

sion will be asked to spread the increase over both freight and passenger

The \$600,000,000 award represents a 21 per cent increase in the pay of the railroad men. For the first time in history the roads' pay rolls this year will pass the \$3,000,000,000 mark. Whiter estimated the 1920 pay rolls at \$3,344,000,000, more than double the \$1,468,576,394 paid in 1916.

The board's award was made retroactive to May 1, with provision that back pay for three months falls due August 1, when \$150,000,000 is to be distributed in addition to the regular pay. Yard service engineers, firemen and helpers, who received an hourly increase of 18 cents, will get the biggest back-pay checks, their three months award totaling \$110.16.

Children Cry For STORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged

by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children ? Don't be deceived.

Make a mental note of this:-It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.
